

# MaxiDry<sup>®</sup> ZERO<sup>™</sup>

proRange<sup>®</sup>

The MaxiDry<sup>®</sup> Zero<sup>™</sup> integrates the core values of the MaxiDry<sup>®</sup> brand to bring comfort and liquid repellence together and combine them with our THERMtech<sup>®</sup> technology platform. This technology offers thermal resistance up to -10°C/14°F inside the glove under high activity with a coating designed to remain flexible for temperature up to -30°C / -22°F.

MaxiDry<sup>®</sup> Zero<sup>™</sup> is certified according the European food standards and compliant to FDA CFR Title 21 Part 177.

**40°C**  
Certified to be washed.  
CLEAN, FRESH AND COST EFFECTIVE

## TECHNOLOGIES INSIDE

**LIQUItch<sup>®</sup>**

### For protection against oils and hazardous chemicals

In everyday workshop life, your hands can encounter a variety of substances, including cooling lubricants, oils, greases, and hazardous chemicals. Our LIQUItch<sup>®</sup> barrier is specifically designed for these situations.

We dip the oil-repellent or chemical-resistant LIQUItch<sup>®</sup> coatings exclusively onto specially matched carrier materials. This ensures the coating remains flexible and comfortable, while the special material composition protects your hands from a wide range of common cleaning agents and additives.

LIQUItch<sup>®</sup> – probably the most comfortable protective layer against harmful liquids.

**THERMtech<sup>®</sup>**

### For protection against hot or cold

THERMtech<sup>®</sup> combines coating and seamless knitting technologies that impart thermal insulation properties to resist heat or cold. ATG<sup>®</sup> has in-house state of the art facilities to blend heat resistant yarns and fibers to produce products with high thermal insulation properties, without sacrificing flexibility, dexterity, weight and comfort.

**ERGOtech<sup>®</sup>**

### Reduces hand fatigue

**Super soft and super flexible coating** - providing ultimate flexibility even in extremely cold environments allowing you to channel energy into the heating of rather than the moving of your hand.

**Connected with care** - Insulation liner is bonded away from the flex and movement points of your hands i.e. knuckles, to ensure ultimate comfort.

**GRIPtech<sup>®</sup>**

### For a secure grip

**Optimized grip** - delivered through the ultra soft coating to ensure maximum flex and contact with the things you handle. GRIPtech<sup>®</sup> decreases hand fatigue and increases safety.

## CLEANLINESS GUARANTEED

Cleanliness and hygiene are fundamental components of our product philosophy. We always do our best to ensure your safety.

We play it safe when it comes to your health. That's why all our products are tested and accredited by dermatologists and doctors from the Skin Health Alliance. We wash our products prior to packaging them to remove even the smallest traces of production residues.

To ensure none of our materials pose a risk to your health, almost all of our products are also certified according to the OEKO-TEX<sup>®</sup> Standard 100. We only use REACH-compliant raw materials and additives and none of our products contain SVHCs.

We do everything we can to make sure ATG<sup>®</sup> gloves are kind both to users' skin and to the planet. We call this: HandCare<sup>®</sup>.

Reducing emissions is a top priority for us and we do our utmost to achieve our goals. But you can benefit from this too, because our mechanical gloves can be washed several times. This not only saves you money, but also reduces the consumption of valuable resources.

Hand protection by ATG<sup>®</sup> – skin-friendly gloves guaranteed.

## ALSO AVAILABLE IN THE MAXIDRY<sup>®</sup> RANGE

### MaxiDry<sup>®</sup>

People have been asking us to make an **oil repellent** MaxiFlex<sup>®</sup> that's still super thin, flexible, dexterous and comfortable. So we did and it's called MaxiDry<sup>®</sup>.

### MaxiDry<sup>®</sup> Elite<sup>™</sup>

With a material thickness of just 0.7 mm, the new MaxiDry<sup>®</sup> Elite<sup>™</sup> is the thinnest and lightest assembly glove for oily applications we've ever built.

### MaxiDry<sup>®</sup> Plus<sup>™</sup>

MaxiDry<sup>®</sup> Plus<sup>™</sup> is designed and developed for those working with **chemicals requiring good levels of protection** and is certified as a Type B product according to EN ISO 374:2016 + A1:2018.

### Where to use:

**MAXIDRY<sup>®</sup> ZERO<sup>™</sup> IS DESIGNED FOR USE IN DRY OR WET ENVIRONMENTS REQUIRING THERMAL RESISTANCE.**
